**8. Project Location** BLM – Coos Bay District. Myrtlewood and Umpqua Field Offices

**9. Statement of Project Goals and Objectives:**

Supply the County Planning Department with a complete set of current (2002) aerial photos of the BLM Coos Bay District and adjacent lands. The acquisition of these photos will reduce the need for the watershed associations, or the landowners they are working with, to come to the BLM office in North Bend in order to obtain aerial photos of proposed project areas. Having these photos available in the County Planning Office will reduce labor costs for the watershed councils (especially the Coquille WSA), or expenditure by a private landowner, associated with traveling to the BLM office to obtain photos.

**10. Project Description:**

Purchase one full set of color aerial photos (7,000 photos per set) and provide it to the County Planning Department. The cost of one full hard copy set is \$20,000 or approximately \$2.86 per 9" by 9" color photo. Additionally provide each the Coos and Coquille Watershed Associations with a CD containing one full digital photo set. The cost of one CD is approximately \$100.

**11. Coordination of this project with other related project(s) on adjacent lands?**

☐ Yes    ☒ No

**12. How does proposed project meet purposes of the Legislation?** [Sec. 203(b)(1)]

- ☐ Improves maintenance of existing infrastructure. [Sec. 2(b)]  
☒ Implements stewardship objectives that enhance forest ecosystems. [Sec. 2(b)]  
☐ Restores and improves land health. [Sec. 2(b)]  
☐ Restores water quality. [Sec. 2(b)]

**15. Duration of Project and Estimated Completion Date:** [Sec. 203(b)(2)]

Photos should be purchased and delivered by June 2003

**16. Target Species Benefited:** (if applicable) N/A

**17. How will cooperative relationships among people that use federal lands be improved?** [Sec. 2(b)(3)]

The potential for cooperative relationships will be improved by providing watershed associations and local landowners more convenient access to aerial photos of the BLM Coos Bay District and adjacent Coos County Lands. Landowners that may be hesitant to go to a BLM office to review aerial photos may be more willing to go to the County Planning Department or local watershed association. This may also help provide a point of contact for local landowners and watershed associations, that may lead to future restoration projects within their respective watersheds. Which may ultimately benefit conditions on federally-managed lands or species that use federally-managed land. These aerial photos would also be used by the watershed associations when identifying and proposing watershed restoration projects on, or adjacent to, federally-managed land.

**18. How is this project in the best public interest?** [Sec. 203(b)(7)] **Identify benefits to communities.**

See the answer to question # 17 above.

**19. How does project benefit federal lands/resources?**

Local landowners will have a greater opportunity to access information about federally-managed lands (photos) and therefore have improved opportunity educate themselves about its location on the landscape, uses, and condition. This could lead to a greater understanding of land management practices and identification of restoration opportunities.
